FROM ANYWHERE ON ANY DEVICE

The benefits of cloud computing are well-known these days. The cloud offers today's IT environment a wealth of cost-saving options through effective resource management, economies of scale, and virtualization. Here at 85under, we work with you to generate a cloud hosting solution that is custom-fit for your particular business needs.

Benefits

- Better IT Allocation
- Reliability
- Scalability
- Flexibility
- Enterprise Hardware
- Availability
- Scalable
- Security
- Data Backups
- Customizable
- Basic Monitoring Included

Better Talent Allocation

Keep IT resources focused on core tasks that are essential to your business.

Reliability

Count on our certified engineers and dependable enterprise hardware with 100% uptime, 24/7.

Scalability

Quickly expand or reduce hardware usage to meet customer demand.

Flexibility

Only pay for the resources that your business needs.

Enterprise Hardware

Our cloud runs on enterprise hardware using IBM and Cisco technologies. Let our investments go to work for you.

Availability

Our hardware is redundant at the host servers, storage and networking layer. We have internet connections from 4 major providers to ensure you're always connected to your resources.

Security

Keep your data safe behind our Cisco Enterprise Security appliances. Our Cisco switching, firewall and Intrusion Prevention Service keeps you protected 24/7/365.

Scalable

Need to double your power and performance for next month only? Scale your cloud servers up and down as needed.

Data Backups

85under will keep your data safe powered by Veeam Backup Solutions. Ask us how we can help you design your Disaster Recovery Plan.

Customizable

Hybrid solutions give you the best of both worlds; cost effectiveness and security.

Basic Monitoring

Track and report CPU, Memory and Disk information to ensure your servers are optimally tuned for your needs.

About Us

What makes us Unique

Underground - Our datacenter is 85 feet underground

Bandwidth - Gigabit Speed Burstable

Selection - Custom Server Components - Select Cores, RAM and Storage individually. Buy only what you need

Simplicity - Microsoft Licensing Month to Month On Demand

Accommodating - Host your own hardware (or lease dedicated) on the same network as your cloud server (colocation)

Managed - pulse85 offers a persistent team assigned and dedicated to you (get to know them by name!)

Supported Operating Systems

Enterprise Hardware
