# Managed Hosting

## LET US MANAGE YOUR INFRASTRUCTURE

85under offers a wide array of IT managed services. These services range from firewall management to server deployment. Let us work with you to create a customized managed hosting solution to address your mission-critical needs.

## Benefits

- Convenience
  - Flexibility
  - Value
  - Quality
  - Managed
  - Redundancy
  - Cooperative
- 

### Convenience

Services are billed on a monthly basis; pay as you go.

### Flexibility

Let us know your custom needs as we install, configure and manage your critical infrastructure.

### Value

Enjoy capex upgrades without the usual capex price tag.

### Quality

Take advantage of service-level-agreements backed by certified professionals.

---

### Managed

Let 85under manage your infrastructure so you can focus on running your business.

### Redundancy

Geographically separated datacenters ensure that you'll always have your data when disaster strikes.

### Cooperative

If you want to attend the installation of your leased or collocated gear, just let us know and we can arrange it.

# About Us

What makes us Unique	
<b>Underground</b>	- Our datacenter is 85 feet underground
<b>Bandwidth</b>	- Gigabit Speed Burstable
<b>Selection</b>	- Custom Server Components - Select Cores, RAM and Storage individually. Buy only what you need
<b>Simplicity</b>	- Microsoft Licensing Month to Month On Demand
<b>Accommodating</b>	- Host your own hardware (or lease dedicated) on the same network as your cloud server (colocation)
<b>Managed</b>	- pulse85 offers a persistent team assigned and dedicated to you (get to know them by name!)

# Enterprise Hardware

Technical Specifications	
Cisco Server Hardware	Cisco Firewall and Intrusion Prevention
IBM Enterprise-class SAN infrastructure	Create Server Template Images
Cisco Datacenter Switching Infrastructure	Microsoft and Linux Operating Systems
