- Manage

#### **Peace of Mind**

Our 24/7 security and monitoring keeps your infrastructure safe.

## **Efficiency**

Reduce internal duplication of IT efforts.

#### **Best Practices**

Ensure compliance with enterprise standards.

## Accountability

Receive statistics measuring the health state of your infrastructure.

## **Security**

Let our team consult you on security best practices and implementations.

#### Value

Optimize your hardware usage based on your budget.

### **Agility**

Quickly add or reduce virtual machines in accordance with changing organizational needs.

## **Flexibility**

Easily scale to accommodate the ebbs and flows of your business.

#### Customizable

85under can help customize a solution that fits your business needs.

#### Scalable

We'll help you grow as your IT needs increase.

## Manage

Let our team manage your infrastructure needs ensuring your data and resources are available 24/7.

## **About Us**

## What makes us Unique

Underground - Our datacenter is 85 feet underground

Bandwidth - Gigabit Speed Burstable

**Selection** - Custom Server Components - Select Cores, RAM and Storage individually. Buy only what you need

Simplicity - Microsoft Licensing Month to Month On Demand

**Accommodating** - Host your own hardware (or lease dedicated) on the same network as your cloud server (colocation)

**Managed** - pulse85 offers a persistent team assigned and dedicated to you (get to know them by name!)

## **Enterprise Hardware**

Technical Specifications
