Managed Private Cloud,

SECURE AND ON DEMAND

Using 85under's IaaS (Infrastructure as a Service), your team can enhance its IT infrastructure based on the business requirements. Leveraging our cloud expertise takes away the concerns regarding security, backups, and maintenance. Our certified experts manage your private cloud to ensure it stays in top notch shape.

Benefits

- Security
- Value
- Agility
- Flexibility
- Enterprise Hardware
- Availability
- Network Security
- Data Backups
- Customizable
- Scalable
- Manage

Security

Enjoy peace of mind with isolation and other security features not available on public clouds.

Value

Optimize your hardware usage based on your budget.

Agility

Quickly add or reduce virtual machines in accordance with changing organizational needs.

Flexibility

Easily scale to accommodate the ebbs and flows of your business.

Enterprise Hardware

Let our team design your private cloud using enterprise class hardware. We can customize a hardware solution that fits your needs.

Availability

We'll design a redundant system at the host server, storage and networking layer. We have internet connections from 4 major providers to ensure you're always connected to your resources.

Network Security

Get the security you need, we'll keep you isolated in your environment at all layers. Firewalls and Intrusion Prevention can be added for additional security. Our team can help with security audits and compliance adherence.

Data Backups

85under will keep your data safe powered by Veeam Backup Solutions. Ask us how we can help you design your Disaster Recovery Plan.

Customizable

Hybrid solutions give you the best of both worlds; cost effectiveness and security.

Scalable

We'll help you grow as your computing needs increase.

Manage

Let our team manage your private cloud and ensure its optimally tuned for your needs.

About Us

What makes us Unique	
Underground	- Our datacenter is 85 feet underground
Bandwidth	- Gigabit Speed Burstable
Selection	- Custom Server Components - Select Cores, RAM and Storage individually. Buy only what you need
Simplicity	- Microsoft Licensing Month to Month On Demand
Accommodating	- Host your own hardware (or lease dedicated) on the same network as your cloud server (colocation)
Managed	- pulse85 offers a persistent team assigned and dedicated to you (get to know them by name!)

Supported Operating Systems

Enterprise Hardware

Technical Specifications
