Fast, Reliable, Enterprise Web

HOSTING WITH WORLD CLASS SUPPORT

Your website is many people's first impression of your company. It can also be a customer's best resource for learning about you and ultimately patronizing your business. Effective web presence is critical to any business, and technical problems like website downtime or slow page-loads can compromise your bottom line. With our hosting solution, your website will be up and running 24/7, continuously scaling to accommodate traffic spikes and other online demands.

Benefits

- Service
 - Security
 - Support
 - Windows/Linux Web Hosting

-

Service

We take time to understand your business and give you exactly what you need to meet the needs of your specific hosting environment.

Security

Whether it's testing, staging, development, or production, your deployment is safe, secure, and scalable.

Whether it's testing, staging, development, or production, your deployment is safe, secure, and scalable.

Support

Our dedicated support team will go above and beyond to deliver a successful website around the clock.

Windows/Linux Web Hosting

85under supports Windows and Linux Web Hosting options.

Control Panel

Our secure and easy to use control panels allow you to make the changes you need. Our team can help with any issues you may have.

Database Support

Let 85under help integrate your website with a database on the backend.

Secure

We can help you secure your website behind enterprise class security devices ensuring a safe browsing experience for your end users.

About Us

What makes us Unique	
Underground	- Our datacenter is 85 feet underground
Bandwidth	- Gigabit Speed Burstable
Selection	- Custom Server Components - Select Cores, RAM and Storage individually. Buy only what you need
Simplicity	- Microsoft Licensing Month to Month On Demand
Accommodating	- Host your own hardware (or lease dedicated) on the same network as your cloud server (colocation)
Managed	- pulse85 offers a persistent team assigned and dedicated to you (get to know them by name!)

Enterprise Hardware

Technical Specifications	
Cisco Server Hardware	Cisco Firewall and Intrusion Prevention
IBM Enterprise-class SAN infrastructure	Create Server Template Images
Cisco Datacenter Switching Infrastructure	Microsoft and Linux Operating Systems
